PROFESSIONAL SUMMARY

Blockchain and Full Stack Developer with 3+ years of experience in designing and implementing secure, scalable solutions for decentralized applications. Proficient in Solidity, NodeJS/NestJS, ReactJS/NextJS and VueJS, with a strong focus on optimizing user experiences and enhancing transaction transparency. Adept at team collaboration and delivering high-quality code in remote-first environments. Passionate about transforming global trust systems through innovative blockchain technology.

WORK HISTORY

BACKEND DEVELOPER

01/2024 to CURRENT

Independent Contract | USA (Remote)

- Developed robust backend systems with NestJs, integrating blockchain functionality for gaming platforms.
- Designed and implemented smart contract interactions, enabling secure and automated blockchain transactions for in-game assets and rewards.
- Integrated blockchain functionality into backend infrastructure of gaming platform, facilitating seamless communication between blockchain and backend systems.
- Collaborated with cross-functional teams to design and implement backend solutions, leveraging blockchain technology to achieve 15-25% increase in security and transparency for gaming transactions.

FULL STACK WEB DEVELOPER

10/2023 to CURRENT

ShareCard | Kampala (Remote)

- Created easy-to-use APIs for third-party integrations, enhancing functionality of existing applications without compromising on performance or security.
- Collaborated with cross-functional teams to ensure seamless integration of front-end and back-end components, delivering fully functional web applications.
- Delegated development tasks to team members and conducted code reviews, ensuring high-quality production standards.
- Proactively bridged design and technical teams, optimizing user-centric solutions.
- Used ORM and SQL to develop and manage databases.
- Increased website performance by optimizing front-end and back-end code for faster loading times about 20%.

RECRUITER

08/2022 to 01/2023

Freelance | Remote

- Conducted reference checks, background screening and other pre-employment checks to verify information on applicant's resume.
- Coordinated schedules to arrange management interviews with applicants.
- Built strong relationships with internal and external candidates to ensure excellent hiring experience. Managed to match 4 developers with available jobs

ADVERTISER AND SALES AGENT

07/2020 to 01/2022

Alliance In Motion Global, Incorporated | Philippines

- Educated people about food supplements, awareness of company to drive sales.
- Turned consumers to investors and increased local branch sales about 5%.
- Revitalized old presentation designs with fresh visuals that reflected new branding initiatives without sacrificing message clarity or impact.
- Enhanced presentation quality by designing visually appealing graphics and layouts.
- Developed strong relationships with clients through excellent customer service and regular followups.

EDUCATION

Bachelor of Science | Computer Science And Programming Cavendish University, Kampala, 102

05/2022

TRAVEL, MUSIC AND BOOKS

Traveling, music, and books are my passions. I love exploring new cultures and landscapes through travel, finding inspiration and joy in various genres of music, and getting lost in captivating stories and new perspectives within the pages of books. These hobbies enrich my life, broadening my horizons and providing endless opportunities for discovery and growth.

SKILLS

- Decentralized applications
- Cross-chain solutions
- Nest js
- Solidity programming
- Smart Contract Development
- Vue js
- Node.js Development
- Hardhat
- React JS
- Cryptocurrency Knowledge
- Web3.js library
- Ethereum platform
